Good

Result of Degree should be 100 % every year and excellent and value based so that the students can do something as a good citizen in his life and for the society. Honourable teachers should monitor and guide every students in a regular manner. It's my little suggestion and request to administration, teachers and students.

Good knowledge

Excellent

Need more teachers in some department

As a ex student of barama college I just want to tell that campus is overall good but library is not so good ...I learned lots of things from our dpt. Zoology.thanks

It's better if we would have good communication with teachers and time to time meeting for students so that students skills would develop.

Good infrastructure can improve in learning ability and make available of ICT in learning should focus.

Learned a lot reading at this college

Need mor facultie in departments

Need more lab facilities and equipment for the laboratory of Science streams and need more Teaching staffs,

More teachers needed in some departments

Change the principal and more faculties are needed in each department specially zoology. Library should be expanded and more and more collections of departmental books are needed.

I am proud of being a part of Barama college. It was a great experience with good experience & loving teachers. Thanking you

Improvement is on process

Thanks Barama college for everything

Well management...

Firstly thank you very much for giving opportunity to send my feedback how I find to study in College. The questions asked to all of us is very and important. I done all the question and choose one option for every question ,But it may be right or wrong. In some questions I choose strongly disagree because in Q.no.4 asked about syllabus is complete or not for that our physics (HC) syllabus was not completed yet . The class was going well before first sessional exam but after the exam class was not take regularly. For some questions I choose agree also because I love it. At the end I want to take a special meeting in auditorium hole about these questions how we improve some condition. Thanks

Our classroom facility is not really good its very disappointing for me, please change our classroom facilities, develop in sports facility and also our college have less lectures, I think we need some more lecturers in our college. Thank you for giving me this opportunity.

If I say college facilities like providing education is good. But facility of boys urinal should be cleaned properly.

Neutral

I've nothing to say about our college because all is well

Teachers should clarify their concept on the subject. There is no facility of Projector in our college. There must be one class atleast once in a month with projector. Teachers should focus on Practical knowledge rather than theories. Lab should be well developed;lack of chemicals,instruments. The office staff should behave politely with the students.
